  - Jira
  - Figma
  - SCRUM
  - Adobe Illustrator
  - Adobe Premiere Pro

Soft Skill

- Problem-solving
- Effective communication
- Teamwork
- Adaptability
- Detail-oriented

Languages

- Spanish - Native
- English - Proficient
  - C2 (EF SET)
  - 112 (TOEFL iBT)

About Me

Dedicated and detail-oriented web developer, passionate about beautiful design, highly skilled in HTML, CSS, JS, Bootstrap 5, Java, and MySQL, eager to work with a highly experienced team, and learn from them. I am a creative person that loves problem-solving.

Professional Experience

Fullstack Web Developer | Generation México Bootcamp
January - April 2023 *México*

- Designing and developing an e-commerce website as a final project, using Figma for mockups
- Using HTML5 CSS, JS, and Bootstrap for the frontend
- Using Java, Spring Boot, and MySQL for the backend
- Using Git & GitHub for version control
- Working in a team of developers, sharing feedback and troubleshooting problems
- Acting as temporary Scrum master for part of the project development timeline
- **Repository**: github.com/XigmaProGaming/AbajoDelReloj.com

Junior Manufacturing Engineer | Federal Electronics
October 2018 - April 2019 *Hermosillo, Sonora, México*

- Developing and prototyping assembly process instructions for the manufacturing of new cable harnesses part numbers
- Providing assistance and support to assembly line operators
- Writing and documenting vendor problem reports informing clients of issues or discrepancies in their build specifications

Control and Automation Technician | RCR Refrigeración
February - July 2018 *Hermosillo, Sonora, México*

- Assembling and testing electrical control panels for industrial refrigeration systems, and cold storage rooms following wiring diagrams
- Prototyping and developing a visual interface using a Siemens PLC and a Weintek touch screen.

Education

Java Full Stack Web Developer | Generation México
January - April 2023 *México*

Intensive coding bootcamp, focused in developing both technical (HTML, CSS, JavaScript, Bootstrap, Java, MySQL, etc.) and soft skills (teamwork, problem-solving, effective communication, etc.)

B.Sc, Mechatronics Engineering | ITESM Campus Sonora Norte
2013 - 2017 *Hermosillo, Sonora, México*

Degree program focused mainly in four areas: mechanical engineering, electronics engineering, control engineering, and computer engineering. Development of skills such as logic, mathematics, analysis, problem-solving, via projects and investigations.
